## Lubrificanti Bel-Ray

### Bel-Ray EXS Full Synthetic Ester 4T

Sviluppato durante il Campionato Mondiale Superbike, Bel-Ray EXS si caratterizza per una base sintetica di oli ad alta polarità ed una composizione chimica anti-usura esclusiva che consente di proteggere il motore, la trasmissione ed i componenti della frizione dalle temperature e dagli sforzi più severi.

**Applicazione:** Idoneo per tutti i motori a quattro tempi con raffreddamento ad aria o liquido nei quali sono richieste massima protezione e minima frizione. Offre il massimo risultato ed un'insuperabile protezione del motore dalle moto da corsa alle moto da strada. Protezione anti-usura ed intervalli di scarico prolungati ne fanno una scelta oculata per tutti i motori a quattro tempi.

Disponibile in confezione: **flacone da Lt. 1x12, fusto da Lt. 60 e da Lt. 208.**  
SAE 5W-40 per competizioni agonistiche, 10W-50 per la maggior parte delle moto.

### Bel-Ray Thumper Racing Syn Ester Blend 4T E/O

Bel-Ray Thumper Racing Oil è un olio motore semi-sintetico di alta qualità, multigrado, formulato per i motori monocilindrici 4 tempi, che "partono all'assalto" delle piste di Motocross e di Supermotard di tutto il mondo.

Sviluppato per le condizioni più estreme di utilizzo, Bel-Ray Thumper Racing Oil garantisce:

- Un basso consumo di olio alle alte temperature
- Una protezione contro la viscosità ad alte temperature e la diluizione della benzina
- Una durata più lunga del motore, grazie all'azione anti-usura, "formula specifica Bel-Ray".

**Applicazione:** per motori 4 tempi competition, monocilindrici, multivalvole raffreddati sia ad aria che a liquido.

Disponibile in confezione: **flacone da Lt. 1x12, fusto da Lt. 60 e da Lt. 208.**  
SAE 10W-40, 15W-50.

### Bel-Ray EXP Synthetic Ester Blend 4T

Miscela semi-sintetica offre alcuni benefici sopra descritti relativamente all'olio EXS ad un prezzo più conveniente.

**Disponibile in confezione: flacone da Lt. 1x12, fusto da Lt. 60 e da Lt. 208, dipende dalla gradazione.**

SAE 10W-30, 10W-40, 15W-50.

### Bel-Ray ATV Trail Mineral 4T Engine Oil

Questo prodotto è stato appositamente progettato con formula Bel-Ray Rust Defense System (RDS) per soddisfare le esigenze dei veicoli fuoristrada (ATV). Le alte temperature d'esercizio, i carichi di lavoro pesanti e le condizioni estreme di utilizzo di un ATV richiedono una protezione speciale contro la corrosione, un'alta resistenza della pellicola protegge gli organi meccanici, e garantisce una stabile lubrificazione alle alte e basse temperature.

#### Applicazioni:

- Raccomandato per motori sia mono che pluricilindrici.
- Adatto a motori raffreddati sia ad aria che ad acqua
- La qualità dell'olio rimane inalterata durante il fermo del veicolo anche a bassissime temperature.

Disponibile in confezione: **flacone da Lt. 1x12, fusto da Lt. 208.**  
SAE 10W-30, 10W-40.

### Bel-Ray H1R Racing 100% Synthetic Ester 2T

H1R Power Valve Bel-Ray.

La sua formula completamente sintetica fa sì che non vi siano compromessi, si può beneficiare della massima potenza grazie all'elevata untuosità e a un minimo attrito, per non menzionare la protezione anti-usura!

È studiato appositamente per non lasciare residui sulle valvole di scarico: significa minor manutenzione e migliori prestazioni. Rapporti di diluizione flessibili tra 30:1 fino ai 50:1 consentono di decidere la quantità di olio da miscelare.

Rapporto miscela suggerito: 40:1.

**Disponibile in confezione: flacone da Lt. 1x12.**

### Bel-Ray Si-7 Full Synthetic 2T

Si-7 rappresenta l'olio per lubrificazione separata di recente evoluzione, sviluppato specificatamente per sistemi ad iniezione/autolubrificanti.

La sua formula di combustione pulita, completamente sintetica elimina i fumi e non forma incrostazioni delle candele.

Ha una combustione eccezionalmente pulita e riduce sostanzialmente la formazione di residui. Proprietà anti-usura eccezionali, una resistente pellicola protegge i componenti del motore e riduce l'attrito per il raggiungimento massimo della potenza.

**Applicazione:** Motori a 2 tempi con sistema ad iniezione/auto-lubrificante ad olio, o miscelato fino a 50:1. Può essere miscelato con oli minerali o sintetici.

Disponibile confezione: **flacone da Lt. 1x12 o fusto da Lt. 60 e da Lt. 208.**

### Bel-Ray Friction Modified Thumper Racing 4T Engine Oil

Composto con le migliori qualità di basi estere sintetiche e modificatori di attrito per i moderni motori da competizione a 4 tempi, monocilindrici e multi valvole.

Questo prodotto fornisce la massima protezione anti usura per le valvole, segmenti, cilindri e pistoni e la miglior lubrificazione anti attrito per migliorare la potenza. Supera i requisiti MB di API SM e JASO è adatto per motori a 4 tempi raffreddati ad aria o ad acqua.

Non utilizzare per frizioni in bagno d'olio.

**Disponibile in confezione: flacone da Lt. 1x12.**

SAE 10W-30, 10W-40.

### Bel-Ray Thumper Gear Saver Transmission

Quando si tratta dell'ultima innovazione nella protezione della trasmissione niente può stare al passo con Bel-Ray Gear Saver. Particolari additivi per le pressioni estreme assorbono i carichi derivanti da urti che i normali oli non riescono a contrastare. Una pellicola ultrasensibile elimina il contatto fra i metalli riducendone l'attrito, l'usura ed il surriscaldamento delle parti meccaniche. Non dà origine a formazioni schiumose.

**Applicazione:** Per motori a 2 e 4 tempi con lubrificazione della trasmissione a carter separato, assicura una miglior lubrificazione ed una maggiore durata della trasmissione.

**Disponibile in confezione: flacone da Lt. 1x12.**

### Bel-Ray High Performance Fork Oil

Studiato per fornire un'eccezionale stabilità della viscosità, proprietà anti-usura e anti-schiuma, particolarmente indicato per l'utilizzo in tutti i sistemi ad elevate prestazioni sia per forcelle convenzionali e/o capovolte. Gli agenti modificanti anti-atrito Bel-Ray aumentano l'untuosità per un miglior scorrimento e una migliore maneggevolezza del mezzo.

**Disponibile in confezione: flacone da Lt. 1x12 e fusto da Lt. 20, dipende dalla gradazione.**  
**Gradi: 2,5W, 5W, 7W, 10W, 15W, 20W e 30W.**

### Bel-Ray HVI Racing Suspension Fluid

Bel-Ray HVI è un fluido per gli ammortizzatori ad alte prestazioni. Sviluppato attraverso anni di prove nelle competizioni sportive è in grado di soddisfare le richieste più esigenti dei moderni sistemi di sospensioni da gara. Bel-Ray lubrifica le parti idrauliche interne e mantiene le sue proprietà nelle condizioni di impiego più estreme.

**Disponibile in confezione: flacone da Lt. 1x12.**  
**Gradi: 3W, 5W, 10W e 15W.**

### Bel-Ray Super Clean Chain Lube

Lubrificante per catene. Questa formula esclusiva mantiene la tua catena "Super Pulita" formando un rivestimento esterno che agisce da repellente per lo sporco, la sabbia, l'acqua e la polvere. La formula innovativa Bel-Ray garantisce una lubrificazione di lunga

durata ed una protezione estrema della catena e delle trasmissioni.

**Valido per tutti i tipi di catene!**

**Disponibile in confezione: bomboletta aerosol da ml. 175x24 e ml. 400x12.**

### Bel-Ray Blue Tac Chain Lube

Bel-Ray Chain Cleaner è un pulitore di catene che elimina tutto lo sporco abrasivo (terra, sabbia, ecc...) permette così una maggior durata della catena.

Bel-Ray Chain Cleaner possiede una particolare formula gel che aderisce alla catena e stacca lo sporco più

resistente senza dover strofinare.

Lubrificare bene la catena dopo l'operazione.

**Applicazione:** può essere utilizzato su tutti i tipi di catene incluse le O-Ring e X-Ring.

**Disponibile in confezione: bomboletta aerosol ml. 175x12 e ml. 400x12.**

### Bel-Ray Fiber Filter Oil

È una formula super adesiva resistente all'acqua, non cola, offre una protezione superiore allo sporco, alla polvere, alla sabbia e altri agenti contaminanti. Fornisce massima efficienza ai filtri aria di tipo fibra/reticella attuali.

Il colore rosso del rivestimento lo rende facilmente riconoscibile.

**Disponibile in confezione: bomboletta aerosol da ml. 400x12.**

### Bel-Ray Foam Filter Cleaner Oil Spray

Il Foam Filter Oil Bel-Ray è adesso disponibile anche nella pratica versione Spray, assicura al motore una protezione completa e garantisce ottime prestazioni.

Una superiore viscosità consente di trattenere le polveri nel filtro aria. Non sbiadisce, non

incolla o intasa.

Il colore blu intenso facilita la verifica della lubrificazione del filtro.

**Disponibile in confezione: bomboletta aerosol ml. 400x12.**

### Bel-Ray Super DOT 4 Brake Fluid

Studiato appositamente per soddisfare le specifiche del Ministero dei Trasporti degli Stati Uniti (DOT) 3 & 4 e SAE J1703 e FMVSS 116. Questo significa

un'eccezionale resistenza ai vapori ed il mantenimento della sensibilità sulla leva durante la frenata.

**Disponibile in confezione: flacone da ml. 355x12.**

### Bel-Ray Silicone DOT 5 Brake Fluid

Prodotto al silicone ad elevata prestazione per veicoli con parti frenanti hi-performance. Non danneggia le superfici plastiche e/o verniciate. Non assorbe acqua

(principale nemica dei fluidi per freni) e presenta un elevato punto di ebollizione pari a 260°C (500°F).

Supera le specifiche richieste da DOT 5 e FMVSS 116.

**Disponibile in confezione: flacone da ml. 355x12.**

### Bel-Ray Foam Filter Oil

Il Foam Filter Oil Bel-Ray assicura al motore una protezione completa e garantisce ottime prestazioni. Una viscosità superiore consente di

trattenere le polveri nel filtro aria, lo sporco e persino l'acqua. Non sbiadisce, non incolla o intasa. Il colore blu intenso facilita la verifica della lubrificazione del filtro.

**Disponibile in confezione: flacone da Lt. 1x12.**

### Bel-Ray 6 in 1

È formulato per fornire una pellicola altamente potente e per pulire come un lubrificante. Protegge anche dalla corrosione, dalla ruggine, dall'azione dell'acqua, riduce l'attrito e non danneggia i contatti elettrici.

**Disponibile in confezione: bomboletta aerosol da ml. 400x12.**

### Bel-Ray Brake & Contact Cleaner

Efficace spray per la pulizia e lo sgrassaggio delle parti frenanti, contatti elettrici, candele, motori elettrici e tutte le superfici metalliche. Asciuga dopo pochi secondi e non lascia tracce.

Non provoca danni alla maggior parte delle parti in plastica.

**Disponibile in confezione: bomboletta aerosol da ml. 510x12.**

### Bel-Ray Foam Filter Cleaner & Degreaser

Forti azione pulente che consente di rimuovere i residui di olio, grasso e sporco più difficili. Ideale per l'uso su motociclette, ATV, falciatrici, motori fuoribordo e motori automobilistici - persino su superfici di cemento. Altamente sgrassante

delicato con molti tipi di vernici, gomme e plastiche. Non lascia residui ed è privo di fosfati.

**Disponibili in confezione: bomboletta aerosol da ml. 400x12.**

### Bel-Ray Assembly Lube

Una miscela di bisolfato-molibdeno, aderisce alle superfici metalliche ed è ideale per fornire lubrificazione alle parti del motore durante l'assemblaggio dei componenti press-fit.

Aiuta a prevenire il grippaggio, facilita il montaggio e l'eventuale ulteriore smontaggio.

**Disponibile in confezione: barattolo da gr. 283x12, dotato di spazzola.**

### Bel-Ray Waterproof Grease

Impermeabile anche all'acqua salata. Questo lubrificante non si scioglie, ciò è dovuto alla sua complessa formula all'alluminio che ne garantisce un'impermeabilità totale e duratura. Particolarmente indicato per lubrificare i cuscinetti delle ruote, i cuscinetti a bussola, il telaio.

**Disponibile in confezione: barattolo da gr. 454x12.**
